★ ALPHA-PRO® KID'S PACK ★

Sweet Cotton Candy

Chocorific Chocolate

Berry-Licious

Watermelon Wonder

ALPHA-PRO® KID'S PACK is a blend of polishing and cleaning agents designed for professional use during standard dental hygiene procedures. Each unit dose cup contains enough paste for a single prophylaxis treatment.

Indications for use:

For cleaning and polishing procedures as part of a professionally administered dental prophylaxis treatment. Product is not considered a substitute for other forms of fluoride treatment.

Instructions for use:

1. Using a prophyl angle, fill the cup by pressing the face of the cup into the paste while running the angle at a low speed.
2. Maintain a quick and light touch so the edges of the cup flair slightly while continuing moving from the tooth. Sufficient paste should be maintained on the cup to avoid overheating of the tooth surface.
3. Evacuation of saliva is recommended to avoid dilution and swallowing of the paste.

Storage:

Do not store at temperature above 25°C/77°F. Keep out of direct sunlight. See outer package for expiration date.

Warnings:

- Paste should be expectorated and not swallowed.
- Product contains 1.23% Fluoride Ion, nausea can result from excessive ingestion of fluoride.
- Keep out of reach of children.

CAUTION: U.S. Federal Law restricts this device to sale by or on the order of a dentist.
